Veterans were **more likely** to interact with an officer and reported **[[??]] satisfaction**

An important contextual note: Data were collected in 2018--after the 2014 death of Michael Brown and prior to the 2020 death of George Floyd, both of which proved to be pivotal events with national impacts. We do not intend to quantify how these or other incidents and their media portrayals have impacted Athenians' perceptions about ACCPD Officers and employees.
